Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I. Claims 1-5, 10-12, drawn to DNA comprising nucleotide sequence of SEQ ID NO: 1, vector, host cell and method of preparation of protein of SEQ ID NO: 2.

Group II. Claims 6-9 drawn to L-rhamnose isomerase comprising SEQ ID NO: 2.

Group III. Claims 13-16, drawn method of preparation of rare sugar using protein of group II.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I and group III do not share same technical feature because product of Group I is neither used or produced by the method of group III

While the product of Group II is used in the methods of Group III, they do not share their technical feature because this product can be used in other methods having other technical features.

Even though process for the production of group II protein uses the product of group I product and process of group III use the product of group II protein they do not share a special technical feature because prior art clearly teaches products of group II protein (JMB 2000, 300, 917-933).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

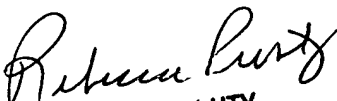

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammad Meah whose telephone number is 571-272-1261. The examiner can normally be reached on 8:30-5PM.
